

Vanessa Canauhtli (they-them) is a gender fluid activist with the Autonomous Brown Berets de San Anto. A six-year advocate for the LGBTQ community with the Human Rights Campaign and the San Antonio Gender Association, Vanessa is often seen testifying and lobbying against anti-LGBTQ bills, and fundraising and volunteering for candidates.

Vanessa moved into more grass roots community organizing and found space to develop this calling as a street protestor, march planner, mutual aid worker and occupier. Vanessa strives toward building dual power among progressive groups, believes oppressive and unequal systems will be overturned, and reminds us a more humane world is achievable.
