

2019 DISTINGUISHED GRADUATE

Alexa Garza

Drama

“The best and most beautiful things in the world cannot be seen or even touched- they must be felt with the heart.”

-Helen Keller

Alexa Garza was born and raised in San Antonio, by loving parents who told her she could be anything she wanted to be with a little hard work and passion. With that in mind, she explored various artistic paths growing up. In 2015, she graduated from Judson High School. By the fall, Alexa was an English major attending Northeast Lakeview College, bright eyed and ambitious.

Alexa however, found her interests shift once again towards theatre arts. After a meeting with her advisor, she became a drama major and transferred to SAC. She learned to break out of her shell, explore different sections of theatre to expand her artistic skills, and improve as a storyteller. Because of this, Alexa was also finally able to take her tragedies in life and turn them into something beautiful, thought provoking, and therapeutic through acting.

Alexa is determined to continue expanding her talents at the University of the Incarnate Word, as well as inspire everyone to pursue what they are passionate about in life without shame nor fear.
