Some economists say they are **social philosophers**,
since our financial well-being is one of our many interconnected resources

Keeping in mind that money is one of our interconnected resources,
the **Financial literacy concept may have been expanded to some degree in the quotes below**

4/4

“The reason I've been able to be so financially successful is my focus has never, ever for one minute been money. Money is created by finding a way to bring more value to other people.”
