## Message from our Interim Vice President:

Greetings SPC Tigers,

The semester is winding down and final exams will occur in the very near future. Take advantage of the many resources available to you at St. Philip's College and use the spaces (Tutoring and Technology, Rose Thomas Writing Center, Integrated Reading Lab, Math World, the Byrd Sanctuary and the Library) to prepare and study for your exams. Schedule a set time to study and stick to the schedule. Remember it is okay to take a 10 minute break for every 50 minutes of study time. Plan and prepare to do your best; it is all up to you.

In service,

Diane Hester  
Interim Vice President for Student Success  
St. Philip's College

## Preventive Steps

After you are fully vaccinated for COVID-19, take these steps to protect yourself and others:

- In general, you do not need to wear a mask in outdoor settings.
- If you are in an area with high numbers of COVID-19 cases, consider wearing a mask in crowded outdoor settings and when you are in close contact with others who are not fully vaccinated.
- You should continue to take all precautions recommended for unvaccinated people, including wearing a well-fitted mask, until advised otherwise by their healthcare provider.
- If you are fully vaccinated, to prevent possibly spreading viruses to others, wear a mask indoors in public if you are in an area of substantial or high transmission.

## May is Stroke Awareness Month.

This month we will focus on strokes and blood pressure. Please join us on Zoom as we will discuss topics on May 4th, for Wellness Wednesday from 2:00PM-3:00PM. According to the National Stroke Association, a person experiencing a stroke can be treated if people have acted **FAST**. FAST is the acronym for things to check when suspecting a stroke:

- F – Face.** Does the face droop on one side when the person smiles?
- A – Arm.** After raising both arms, does one arm drift downward?
- S – Speech.** Is the person slurring or have strange speech?
- T – Time.** If any or all are overserved, time to call 9-1-1.

Visit [Stroke.org](http://Stroke.org) to learn about stroke factors, such as high blood pressure, smoking, diabetes, and diet. Nearly 80% of strokes are preventable.
