## I. Assessment

Northeast Lakeview College Academic Protocol on Assessment originates in Board of Trustees Policy E.1.6, Program and Course Offerings, which requires an oversight evaluation of all academic degree programs and curricula. In accordance also with SACSCOC Principles of Accreditation 7.1, Institutional planning; 8.1, Student achievement; and 8.2.a, Student outcomes: educational programs, the College systematically assesses the effectiveness of its curricula in terms of students' achievement of expressed learning outcomes for each degree and student readiness for transfer to baccalaureate institutions or employment in business and industry.

Faculty support and participate in academic assessment endeavors to this end, acknowledging the importance of academic assessment as part of the Faculty's Code of Professional Ethics. Central to the College's mission, the College's comprehensive program of assessment of student learning and educational effectiveness is primarily Faculty designed, led, and implemented. Primary leadership occurs through the Learning Outcomes Assessment Committee, which is composed principally of faculty and is chaired by a faculty member.
