However, some variants might cause illness in people even after they are fully vaccinated. A third booster dose may also be required. Preventive Steps

All residents of Texas above the age of 12 are eligible for the COVID-19 vaccine. When obtaining COVID-19 vaccine please follow up with second dose, if required. Symptoms may appear 2-14 days after exposure to the virus. Source: <https://www.cdc.gov/coronavirus/2019-ncov/vaccines/index.html>.

September's focus is Alcohol & Substance Abuse Awareness Month

This month we will focus on alcohol and substance abuse. We will highlight the vital role of substance abuse prevention in both individual and community health. Americans between 12-20 account for 11% of the country's monthly alcohol consumption. Nearly 23 million people 12 or older used illicit drugs in a year. Early intervention helps prevent substance abuse and reduce the negative consequences of addiction before they occur. Through community-based efforts involving youth, parents, educators, and government officers, we can strengthen the support systems that deter our Nation's young people from drug consumption and improve both academic performance and workforce readiness.
