

ST. PHILIP'S COLLEGE ANNUAL ASSESSMENT DAY REPORT

INSTITUTIONAL STUDENT LEARNING OUTCOMES 2020 - 2021
ST. PHILIP'S COLLEGE

**St. Philip's College
Annual Assessment Day Report
March 31, 2021**

Introduction

Due to health and safety concerns regarding COVID-19, the St. Philip's College Annual Assessment process was conducted remotely using the zoom and iRubric platforms. This report details Institutional Student Learning Outcomes Assessment Day results to maintain transparency and promote discussion and improvement. Assessment Day occurred on February 5, 2021 and involved 32 faculty assessors and 7 alternates, including department chairs from all five Arts and Sciences departments.

Institutional Process

In order to maintain compliance and accountability, St. Philip's College assesses Institutional Student Learning Outcomes (ISLOs) adopted from the Texas Higher Education Coordinating Board's competencies/objectives for general education core curriculum. These competencies include:

- Critical Thinking Skills (CT) - creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information
- Communication Skills (COM) - effective development, interpretation and expression of ideas through written, oral and visual communication
- Empirical and Quantitative Skills (EQS) - manipulation and analysis of numerical data or observable facts resulting in informed conclusions
- Teamwork (TW) - ability to consider different points of view and to work effectively with others to support a shared purpose or goal
- Social Responsibility (SR) - intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities
- Personal Responsibility (PR) - ability to connect choices, actions and consequences to ethical decision-making

St. Philip's College uses a 2-year assessment cycle. The 2020-2021 Cycle II Assessment addressed **Empirical and Quantitative Skills, Teamwork, Social Responsibility, and Personal Responsibility**. Assessed in 2019-2020, Cycle I included Critical Thinking, Communication, and Personal Responsibility; Personal Responsibility is assessed *every* cycle as part of the institution's Quality Enhancement Plan – Ethical Decision-Making.

The cycle is comprised of artifact collection and submission during the fall semester, followed by Calibration Training and Assessment Day in the spring semester. Students produce artifacts (student assignments) in all general education courses, and faculty submit this work for randomly selected courses. Subsequently, departmental faculty assess these artifacts to determine learning outcome proficiency from the following levels: skillful, emerging, or not demonstrated; (i.e., Communications and Learning faculty assess courses from their departmental disciplines, et. al.).

Assessment Day Results 2020-2021

The Coordinator of Measurement and Evaluation shared the following overview of Institutional Student Learning Outcomes and results with Arts and Sciences Department Dean, Chairs, and faculty on March

26, 2021 via zoom (Appendix A). Discussion of the Cycle II 2020 – 2021 results for Empirical and Quantitative Skills, Teamwork, Social Responsibility, and Personal Responsibility followed. Participants identified problem areas and suggested improvement strategies for underperforming outcomes.

2020 - 2021 Cycle II Overall Results

As shown in *Figure 1* (below, top), overall skillful and emerging (S + E) results for 2020 – 2021 Cycle II exceed the 70% target by 9.3%. *Figure 2* (below, bottom) displays longitudinal trends across both cycles. As displayed, Cycle II results rebounded in 2020 – 2021, following a three-term decline. Cycle I results have dropped 1% each academic year assessed, although the overall results remain above target. 2019 – 2020 was the first Cycle I to assess all SLOs per core foundational area artifact, a change implemented with Cycle II during 2018 – 2019. Prior cycles assessed one selected core foundational area SLO per artifact. In this second Cycle II assessing all SLOs, overall results improved 4% over the 2018 – 2019 assessment period, as well as reaching the highest Cycle II performance rate since the initial assessment in 2014 – 2015.

Figure 1

Figure 2

2020 – 2021 Cycle I Student Learning Outcome Results

Figures 3 through 6 feature Student Learning Outcomes (SLOs) by Core Competency. Seen in Figure 3 (below, top), Empirical & Quantitative Skills SLO1 and SLO3 exceed the 70% target. At 89.0%, SLO1 (Identify and Collect Data) achieved the highest percentage of Skillful and Emerging, while SLO2 (Manipulation of Data) resulted in the lowest score at 68.2%. SLO3 (Analyze data and draw informed conclusions) equals 78.4% Skillful and Emerging.

Figure 3

Figure 4 (below) presents Teamwork SLO results. As shown, all 3 SLOs (SLO1 Contribution, SLO2 Cooperation, and SLO3 Self-management) demonstrated Skillful and Emerging averages greater than 89%.

Figure 4

Figure 5 (below) presents Social Responsibility SLO results. As shown, all 3 SLOs (SLO1 Intercultural, SLO2 Civic Knowledge, and SLO3 Communities) demonstrated Skillful and Emerging averages below the 70% target.

Figure 5

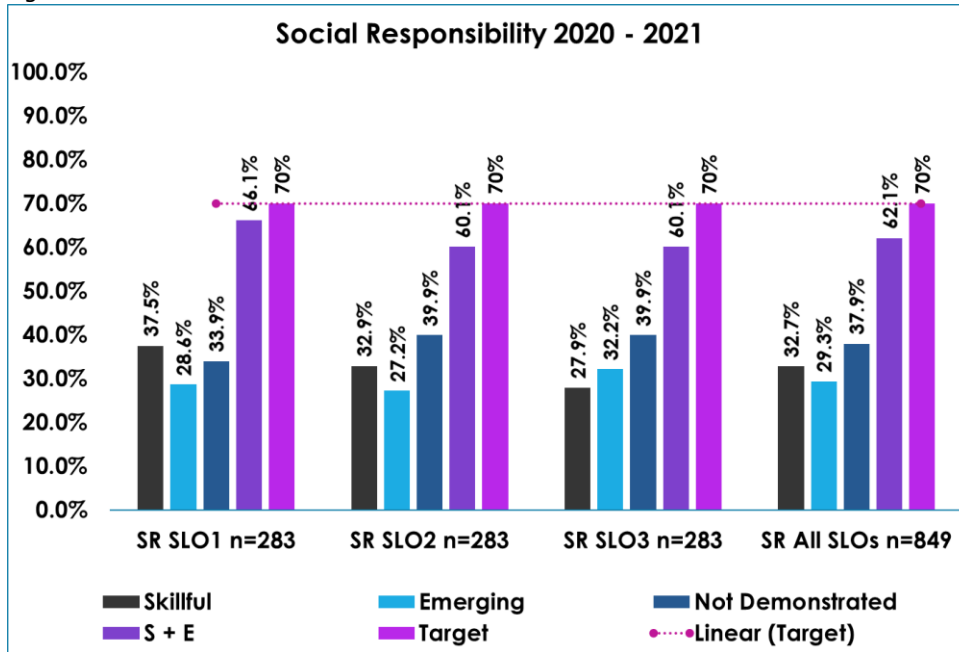

Figure 6

Displayed in Figure 6 (above), Personal Responsibility SLO1 (Ethical Issues, formerly SLO2) features a Skillful and Emerging score of 89.7%. SLO2 (Perspectives, formerly SLO3) scored well above the target at 91.1%. SLO3 (Values, formerly SLO1), with 78.6% Skillful and Emerging, surpassed the 70% target by 8.6% following five consecutive cycles without meeting the target.

Trend Analysis by Institutional Core Competency

Empirical and Quantitative Skills trend analysis in *Figure 7* (below) shows an 8.6% decline (AY 2019 – AY 2021) in the Skillful and Emerging results.

Figure 7

Figure 8

In *Figure 8* (above), overall 2020 – 2021 Teamwork results demonstrate a significant improvement from the 2018 – 2019 scores (+14.5%).

Figure 9 (below) displays a negative trend, as Social Responsibility Skillful and Emerging scores continue declining (-29.2% from initial to current assessment cycle).

Figure 9

The only core competency assessed during every cycle, Personal Responsibility results improved by 9.5% from AY 2020 Cycle I to AY 2021 Cycle II and improved by 14.9% over previous Cycle II (AY 2019) results, as shown in Figure 10 (below).

Figure 10

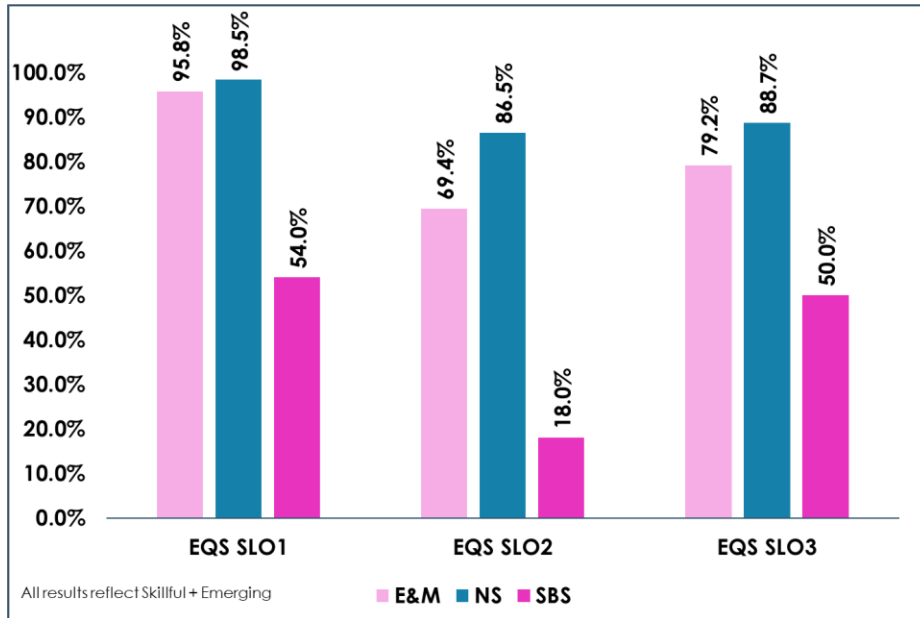

2020 -2021 Cycle II Departmental Results by Student Learning Outcome

Annual ISLO assessment random sample includes general education courses offered by all five Arts and Sciences Departments: Communications and Learning (C&L), Engineering and Mathematics (E&M), Fine Arts and Kinesiology (FAKIN), Natural Sciences (NS), and Social and Behavioral Sciences (SBS). Figures 11 – 14 display data and results by core competency and department. Figure 11 (below) addresses Empirical and Quantitative Skills overall Skillful and Emerging by department. As shown, this core competency presented a challenge in Social and Behavioral Sciences.

Figure 11 Empirical and Quantitative Skills SLOs by Department

As seen in Figure 12 (below), Teamwork Skillful and Emerging results exceeded the 70% target across all SLOs and departments.

Figure 12 Teamwork SLOs by Department

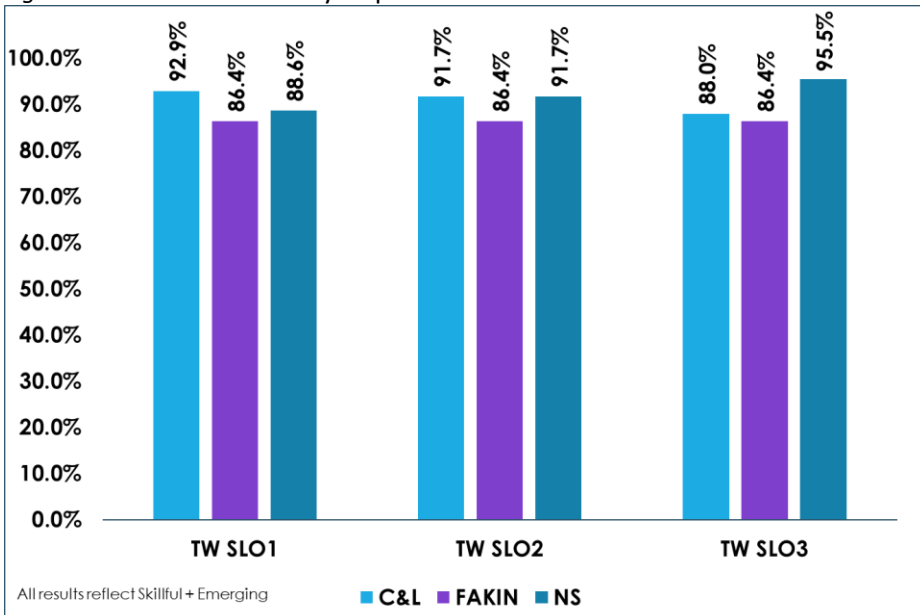

Figure 13 Social Responsibility SLOs by Department

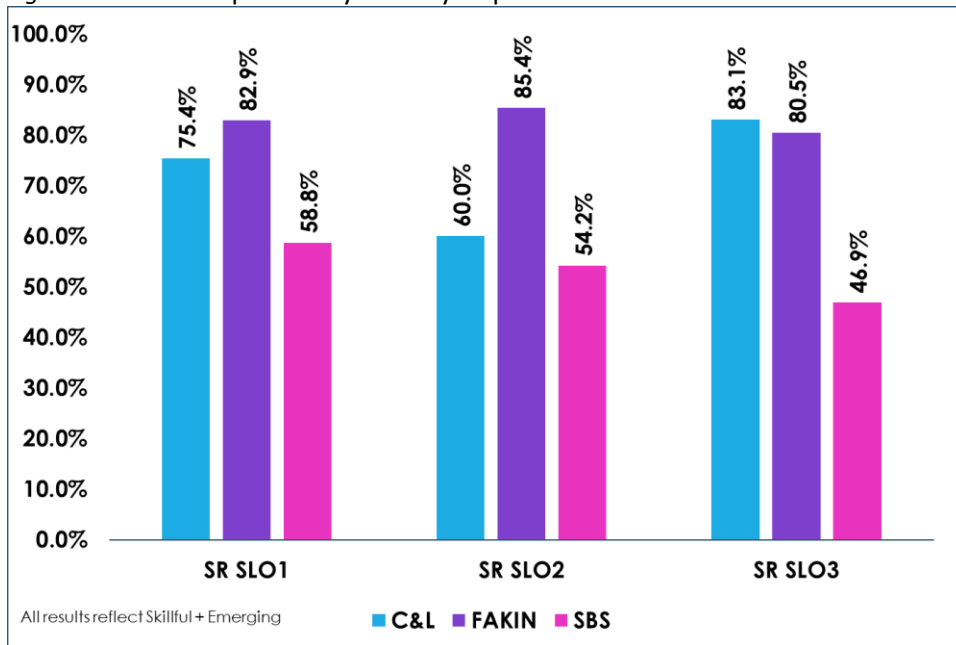

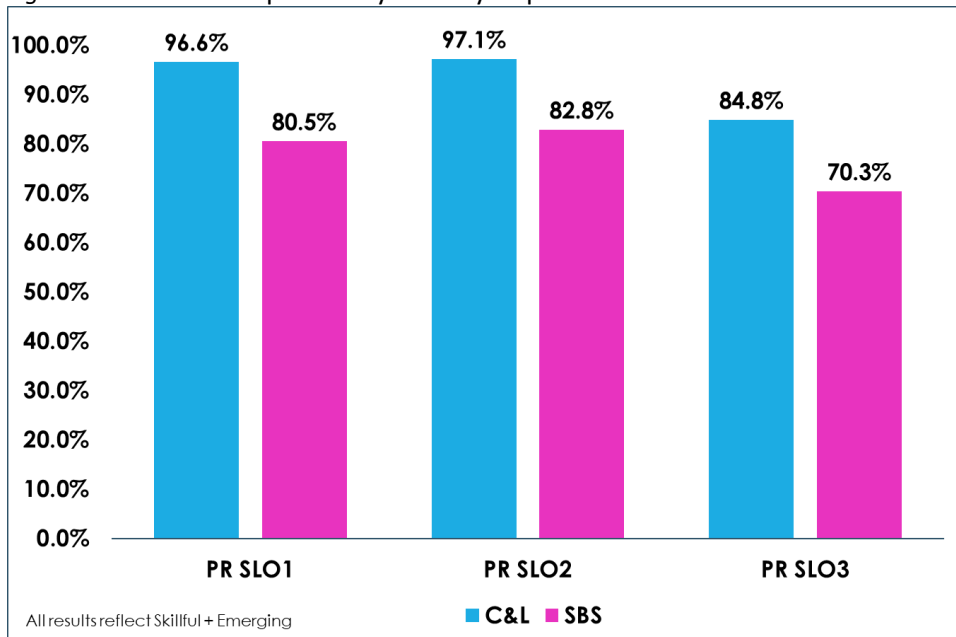

Figure 13 (above) reveals greater results disparities among the three departments assessing Social Responsibility. While Fine Arts and Kinesiology achieved Skillful and Emerging scores over 80% for all three SLOs, Social and Behavioral Sciences did not meet the SLO targets, and Communications and Learning exceeded the target for two SLOs (SLO1 and SLO3).

Shown in Figure 14 (below), Personal Responsibility results met/surpassed the 70% targets across all three SLOs and both departments: Communications and Learning and Social and Behavioral Sciences.

Figure 14 Personal Responsibility SLOs by Department

Improvements 2020 – 2021

Revised methodology in random course sample to stratify by rubric (formerly department) resulted in a more diverse list of sample courses.

Personal Responsibility SLO 3 (formerly SLO 1) exceeded target by 8.6% following five years of unmet target, as shown in *Figure 15* (below).

Second Cycle II Assessment of all SLOs for every core competency to ensure equitable representation of all SLOs; (Cycle II implemented this practice during 2018-2019).

Figure 15

Challenges 2020 – 2021

Fewer artifacts submitted for some courses than course enrollment/completion counts. Overall return rate of 88.9% based on student course completion.

Not all artifact assignments inclusively addressed the core competencies/SLOs required by the foundational component area.

Large numbers of “Not Demonstrated” in some courses.

Social Responsibility overall skillful and emerging results continued declining, falling short of the target for a consecutive Cycle II assessment.

Assessment Showcase Departmental Discussion Highlights

1. Communication & Learning (presented by Jenny Gray, faculty assessor) – More training needed for adjuncts, specifically in dual credit programs; strong Social Responsibility presented in the Speech assignment, method for introducing it to faculty in DC SPCH courses. (Additional feedback provided by Stephanie Gibson, faculty assessor) Required QEP discipline specific assignment training for all

who are teaching. Discipline specific assignment templates that must be followed with the exception of the piece of material to be evaluated with the EDM process. Questions for teamwork need to be revisited to ensure clarity for students across the disciplines. Require everyone to be part of the review process to see the QEP assignment from that perspective in order to gain a better understanding of the desired outcomes.

2. Engineering & Mathematics (presented by Justin Hill, faculty assessor) – Suggest streamlining the submission process (all assignments typed to avoid “Not Assessible”), potential lack of student “buy in” on Empirical & Quantitative Skills (EQS) SLO 2 (Manipulate Data) – (rewording question to increase student interest?), and some debate on the rubric interpretation for SLO 2
3. Fine Arts & Kinesiology (presented by Andrew Heinrich, faculty assessor) – Issues with and questions about Teamwork (TW), specifically subjectivity of student self-assessment and questions regarding assignments based on observation rather than participation; suggestions include crafting a standard assignment and earlier turn in dates
4. Natural Sciences (presented by Dr. Shane Kendell, chair) – Department will continue using Form site for data collection and maintain their standardized assignment (allowing for faculty revisions), observed more consistent responses in the remote environment
5. Social & Behavioral Sciences (presented by Cindy Pryor, faculty and interim chair) – Suggest low Social Responsibility (SR) scores may reflect current reality and lacking SR in this time; concern regarding the purpose and significance of the assessment process includes student duplicating efforts across multiple courses and the implication of results; (are they true and meaningful reflections?)

Overarching Features, Topics, and Improvements

- Rubric interpretation and potential revisions, specifically Teamwork and Social Responsibility
- Process improvement, including use of pre and post-test for more meaningful assessment
- Mandatory assessment training to help ensure adjunct faculty have a better understanding of the assignments and process
- Teamwork discussion regarding whether viewing group projects may be accepted in lieu of participating in a group project
- Discussion of WHY we do assessment (multi-functional general education and ISLO assessment required by THECB and SACSCOC, as well as the Quality Enhancement Plan (QEP) Ethical Decision-Making (EDM) component based on Personal Responsibility
- Departments want to view other departments' assignments for reference and potential improvement/collaboration
- Suggestions for interdepartmental collaboration in developing strategic approaches to improve SLO results and ensure equitable reinforcement of student learning; sharing Fine Arts and Kinesiology assignments, which surpassed the target for all Social Responsibility SLOs, to develop a template across disciplines and departments was discussed
- Social and Behavioral Sciences organized a committee to revisit artifacts for each departmental discipline and coordinate a new approach for the upcoming AY 2022 cycle; (committee members are Kimberly Carlisle, Monique Johnson Dixon, David Kisel, and Kelli Rolland-Adkins)
- Assignment review feedback concurs with several discussion points – more training for improved assignments and inclusive SLOs, “assignment pool” consisting of approved assignment templates across departments and disciplines, rewording some elements/questions of standardized assignments for better student “buy in” or understanding

Recurrence: (none)

Meeting Status: Not yet responded

Organizer: Ramirez, Connie M

Required Attendees: Agricola Mojica, Jennifer R; Agüero, Kristabel; Aguilar, Miguel A; Aguilar, Pablo A; Aiken, Cynthia; Alba, Lourdes C; Alertas-Jacobs, Diane; Alshaikhli, Karrar F; Andrews, Maria C; Arevalo, Philip M; Asamoah, Paul; Awuku, Hayford T; Bass-Wright, Shirley A; Benavides, Rodrigo; Bradford, Shanna L; Biduaka, Roger M; Bowlin, William R; Buckingham, Jason; Calder, Russell; Calderon, Frances F; Candia, Abel B; Casas, Lydia M; Chormanski, Kyle D; Cormier, Maria; Cottier, Mary B; Cottier, Stephanie M; Coy-Mahula, Stacie M; Hernandez, Sunny R; Cruz-Torres, Wanda I; Cunningham, Karen L; Davenport, Laura E; Davis, Christopher B; Dawson, Randall N; De La Rosa, Velia E; Delgado, Esteban; Dinsmore, Cynthia A; Dominguez, Alicia D; Duncan, Jo D; Durham, James S; Elliott, Raymond J; Enriquez Vega, Abel E; Epstein, Lee A; Escamilla, Diana; Fenton, Karlene; Fletes, Rocio; Flores, Jessica M; Flores, Laura; Foss, David; Frilling, Joshua J; Gaitan-Martinez, Mariel S; Galvan, Spencer L; Garza, Melissa J; Geary, Nicole; Gentry, Juliette P; Gentry, Mary H; Gibson, Stephanie A; Goforth, Deretha R; Gonzales, Gregory; Gonzalez, Jack A; Gonzalez, Odilia; Gray, Jennifer N; Grayson, Chris D; Green, Robert D; Grillo, Michael; Grover, Daniel D; Guerra, Alberto I; Guerra, Gloria M; Hamilton, Allen L; Hardy, Vincent C; Haye, Teri A; Heckman, Patricia; Heinrich, Andrew J; Heldmann, Laura P; Herber, Rosalie; Hernandez, Nelson E; Hernandez, Patricia R; Hester, Diane C; Hildreth-Mar, Ann; Hill, Andrew J; Hill, Justin R; Hollon, Lynne E; Hooper, Donald; Hudock, Matthew F; Humberson, Laurilyn; Hunt, James R; Irving-Conaway, Kimberley M; James, John N; Johnson, Beth E; Johnson, George H; Johnson, Monique L; Katz, Cynthia D; Keck, Molly E; Kelaita, Mary A; Kelley, Edmond R; Kendell, Shane M; Kisel, David; Koonhow, Stacie R; Lamza, Andrew T; Lay, Arianna C; Lee, Paul W; London, Alice E; Longoria, Santiago; Lopez, Irma S; Lopez, Jessica A; Lopez, Sylvester J; Lothamer, Lucas J; Mancha, Elizabeth; Manzo, Jude T; Martinez, JoAnn; Martinez, Norbert C; Miller-Sallese, Genevieve F; Miranda, Jamie C; Mitchell, Renita D; Monseau, Michele A; Nanivazo, Joelle M; Nava-Fischer, Carmen; Nawrocik, Jack L; Nfor, Solomon K; Nicholson, Alexis C; Niyomugaba, Yvette; O'Casey, Edward A; Ortega, Lydia M; Osborne, James R; Osborne, Jen L; Ozuna, Regina M; Panthi, Basu D; Parrott, Jennifer M; Passty, Jeanette N; Patterson, Shannon A; Pennick, Anissa J; Perdue, Tiffany J; Perez, Peter J; Perez, Roxanne; Pichot, Kenneth C; Plunkett, Terry P; Poff, Kenneth R; Pryor, Cynthia J; Rajamanickam, Subapriya; Ramasamy, Kumaraguruparan; Ramirez, Marissa; Reddy, Srinivasa E; Ricketts, William K; Rocha, Aurelia G; Rodriguez, Guadalupe M; Rodriguez, Maria G; Rolland-Adkins, Kelli Y; Ruiz-Velasco, Alejandro; Saint Hubert, Marie-Michelle; Sammons, Josephine C; San Miguel, San Juan; Saunders, Kimberly E; Schmidt, Eric J; Schneider, Justin B; Sifuentes, Louis F; Smith, Delicia A; Smith, Desiree Y; Snavely, Sandra A; Sovine, Meagan B; Steel, Greg; Taylor-Robinson, Rachael L; Teresa Hopwood; Thomas, Jonathan D; Torres, David; Trautman, William B; Valdovinos, Christopher; Vega, Cathy R; Viola, Ronald V; Washington, Kim Y; Watts, Tracy L; Wayne, E R; White, Kathryn B; Williams, Alfred L; Williams, Charity J; Williams, Daniel F; Williams, Grayling B; Williams, Tyrell D; Young, Irene W; Zannaras, Georgia; Martin, John F; Tello, Eitandria G

Optional Attendees: Melissa A Guerrero (mguerrero269@alamo.edu)

RETURN TO DIVISION MEETING ZOOM AT 10:45 am

Agenda

- Grillo – Updates
- Martin – Title 9 updates
- Bradford – ISLO Assessment

Information Items:

- Return to Campus
 - 25% in summer, 50% in fall
 - Remote work requests expire July 15
 - April 23 District Meeting
 - Will lay out the return to campus plan
- Faculty and staff will **not** have the day off for Fiesta this year (student holiday only)
 - Employees will be given extra leave time in lieu
- Faculty 180
 - Due March 31
- Annual evaluations
 - Adjuncts and Dual Credit
 - Peer evaluations
- IUR
 - A&S Report Out – 4/22/21 3:00 to 4:00 pm

Connie Ramirez is inviting you to a scheduled Zoom meeting.

*FCA based on THECB Core Course Assessment Matrix

Core Objectives Assessed 2020 - 2021 (Cycle II)

- ▶ **Empirical & Quantitative Skills:** Manipulation and analysis of numerical data or observable facts resulting in informed conclusions
- ▶ **Teamwork:** Ability to consider different points of view and to work effectively with others to support a shared purpose or goal
- ▶ **Social Responsibility:** Intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities
- ▶ **Personal Responsibility:** Ability to connect choices, actions, and consequences to ethical decision-making

Empirical and Quantitative Competency: St. Philip's College students will manipulate and analyze numerical data or observable facts resulting in informed conclusions.

OUTCOMES	SKILLFUL	EMERGING	NOT DEMONSTRATED
Outcome 1 Identify and Collect Data – Clearly identifies what kind of information and what kind of analysis is required. All necessary information is organized logically.	The purpose, components, and variables of the investigation/ project are clearly identified.	The purpose, components, and variables of the investigation/ project are partially identified.	The purpose, components, and variables of the investigation/ project are not identified.
Outcome 2 Manipulation of Data – Presents logical, consistent, and accurate manipulation of data.	Performs accurate and insightful manipulation of data with no errors.	Performs adequate manipulation of data with minor errors.	Performs inadequate manipulation of data with major errors.
Outcome 3 Analyze data and draw informed conclusions – The extent to which the analysis is applied to address the problem.	Reaches adequate conclusions that are logical and supported by the data.	Reaches conclusions that are poorly supported by the data or contain minor logical flaws.	Reaches ambiguous or illogical conclusions that are largely unsupported by the data.

Teamwork Competency: St. Philip's College students will demonstrate the ability to work effectively with others to support a shared purpose or goal and consider different points of view.

OUTCOMES	SKILLFUL	EMERGING	NOT DEMONSTRATED
Outcome 1 Contribution – The degree to which each student provided materials or skills that are integral to the group's ability to complete the given assignment.	Contributes quality work/ideas that meet all the group assignment requirements and effectively shows a willingness to assist others.	Contributes work/ideas that meet some of the group assignment requirements or does not show a willingness to assist others.	Contributes work/ideas that are of lower quality than what was expected, fails to meet the group assignment requirements, or needs constant prodding to complete individual tasks.
Outcome 2 Cooperation – The skills and attitudes necessary for successful group interaction and the successful formation of finalized ideas and plans of action in the group environment.	Exhibits a positive attitude toward the project, assigned tasks, and group members. Is interested in discussing ideas and listening to the ideas of others.	Exhibits an acceptable attitude toward the project, assigned tasks, and group members. Offers few ideas or can at times monopolize the sharing of ideas.	Does not cooperate with other team members; exhibits negative attitude toward project, assigned tasks, or team members or does not effectively participate in sharing information. Causes problems within the team environment.
Outcome 3 Self-Management – The manner in which a group member conducts his/her personal business.	Demonstrates a good work ethic by meeting all deadlines, prioritizing personal projects and generally focusing on all assigned tasks.	Demonstrates a fair work ethic by meeting all final deadlines, prioritizing personal projects enough to meet the final deadline and having enough focus to not distract other group members from the task at hand.	Demonstrates a deficiency in work ethic by either not meeting a deadline, showing poor prioritization that interrupts the group's ability to complete tasks, or possesses a lack of focus that is distracting to others.

Social Responsibility Competency: St. Philip's College students will demonstrate intercultural competency, civic knowledge and the ability to engage effectively in regional, national and global communities.

OUTCOMES	SKILLFUL	EMERGING	NOT DEMONSTRATED
Outcome 1 Intercultural - Student will analyze a specific societal issue from different cultural perspectives.	Clearly analyzes the societal issue from three or more cultural perspectives.	Clearly analyzes the societal issue from two cultural perspectives.	Does not analyze the societal issue from more than one cultural perspective.
Outcome 2 Civic Knowledge - Student will identify his or her civic responsibility and the possible impact of these actions in relation to this societal issue.	Clearly identifies student civic responsibility and clearly assesses the effects of the civic responsibility on the issue at the regional, national, or global level.	Clearly identifies student civic responsibility or clearly assesses the effects of the civic responsibility on the issue at the regional, national, or global level.	Does not identify student civic responsibility and does not clearly assess the effects of the civic responsibility on the issue at the regional, national, or global level.
Outcome 3 Communities - Student will propose ways to engage with regional, national, and global communities to address the societal issue.	Student clearly proposes three or more ways to engage with regional, national, and global communities to address the societal issue.	Student clearly proposes two ways to engage with regional, national, and global communities to address the societal issue.	Student does not propose more than one way to engage with regional, national, and global communities to address the societal issue.

Personal Responsibility Outcome: St. Philip's College students will connect choices, actions and consequences to ethical decision-making.

OUTCOMES	SKILLFUL	EMERGING	NOT DEMONSTRATED
Outcome 1 Ethical issues – Students recognize ethical issues in the social context of problems.	Student recognizes an ethical issue and clearly explains it.	Student demonstrates a partial understanding of the ethical issue.	Student does not clearly explain or understand the basic ethical issue.
Outcome 2 Perspectives – Students analyze alternative ethical perspectives and predict the consequences related to the situation.	Student identifies three or more perspectives to an ethical dilemma and specifies consequences in the application of each of the three perspectives.	Student identifies two perspectives to an ethical dilemma and specifies consequences in the application of each of the two perspectives.	Student does not identify two perspectives or specify their outcomes.
Outcome 3 Values – Students assess their own ethical values and identify the origin of their values.	Student explains his or her own ethical values AND identifies the origin of his or her values.	Student explains his or her own ethical values OR identifies the origin of his or her values.	Student does not explain their own ethical values or identify the origin of his or her values.

Institutional Student Learning Outcomes

2020-2021

Improvements & Challenges

Improvements 2020 - 2021

- Revised methodology in random course sample to stratify by rubric (formerly department); resulted in a more diverse list of sample courses.
- Personal Responsibility SLO 3 (formerly SLO 1) exceeded target by 8.6% following five years of unmet target; (see next slide)
- Second Cycle II Assessment of all SLOs for every core competency to ensure equitable representation of all SLOs; (Cycle II implemented this practice during 2018-2019).

Personal Responsibility – Both Cycles SLO Values Results

PR – Values = SLO3 as of AY2020, formerly SLO1

Challenges 2020 - 2021

- ▶ Fewer artifacts submitted for some courses than course enrollment/completion counts. (Overall return rate = 88.9% based on student course completion)
- ▶ Not all artifact assignments inclusively addressed the core competencies/SLOs required by the foundational component area.
- ▶ Large numbers of "Not Demonstrated" in some courses
- ▶ Social Responsibility overall skillful and emerging results continued declining, falling short of the target for a consecutive Cycle II assessment

Opportunities for Improvement 2020 - 2021

- ▶ Some artifacts were "split," so the SLOs were addressed in separate documents – these should be combined prior to upload
- ▶ Need to address and determine the causes for "Not Demonstrated"
- ▶ Not Assessable definition standardized – illegible/damaged artifact
- ▶ Calibration Day to resume face to face format when possible; moving forward Assessment Day will be conducted online with breakout rooms monitored and managed by Department Chairs for more comprehensive electronic record and documentation
- ▶ New method for sample course documentation to ensure all general education courses submit artifacts
- ▶ Deploy MS Forms to capture cover sheet with full assignment description (each SLO & RUBRIC criteria narrative) and signed accountability form (master list for all courses and required SLOs)
- ▶ Naming convention needs tightening up, student name removal

Contributors & Participants: Thank you!

The following were key contributors to the success of this project:

- Vice President of Academic Success
- Dean of Arts & Sciences
- Arts & Sciences Department Chairs
- Faculty and students developing artifacts
- Faculty Assessors
- Staff Volunteers

Special Thank You to:

- Professors Marissa Ramirez, David Kisel, Jenny Gray, and Irene Young for presenting during Calibration Day
- Dr. Melissa Guerrero for co-leading Assessment Day activities
- Diana Dimas for zoom assistance and preparation

Final Thoughts/Questions

020	Mathematics	MATH-Mathematics	College Algebra Stand Alone	11120	MATH	1314	54	900020709 Karrar Alshaikhi Justin Hill	1	1	1										Y	It was good overall. My only complaint was that different reviewers will disagree (like me and Karrar did) on what constitutes an emerging or expert mastery on SLO2 and SLO3 the way the assignment is written. Basically, the questions could use a little more detail in what the assignment is looking for in manipulating data and analyzing data. JH	There was legitimate confusion (that only one student caught) where the SLO3 question asked which "car" was the best option, but one of the possible answers was a motorcycle. The easiest fix would probably be to change the word to "automobile" in the question, but honestly students still will associate "automobile" with a car, truck, jeep, but not a motorcycle. So I would change the motorcycle to maybe a van, or something like that, and change the word to "automobile." JH

030	Life and Physical Sciences	BIOL-Biology	Nutrition & Diet Therapy	36782	BIOL	1322	19	901357690 Lourdes Alba Ron Viola	1	1	1	1	1	1	1	1	1	1	1	1			NS will continue the following: - Formsite data collection; - All sections complete assessment; - Same assessment for entire department, each faculty member can have input into artifact design; - Incentive (graded assignment etc.) for students to complete; - Faculty commit to large proportion of class complete task. (CNF feedback) in Natural Sciences Department we give the same assignment to all students. This assignment is about enzymes, and students of Physics (PHYS) and Earth Sciences (GEOL) courses, which are smaller number than Biology (BIOL) and Chemistry (CHEM) courses, have difficulty to understand the assignment. I recommend to have two different assignment one for BIOL and CHEM
030	Life and Physical Sciences	BIOL-Biology	Biology for Science Majors I	30892	BIOL	1406	50	900215578 Carmen Nava-Fischer Mary Kelaita	1	1	1	1	1	1	1	1	1	1	1	1			The assignment in general serves well for the purpose of Empirical/Quantitative skills. In this assignment students evaluate themselves their Team Work.

060	American History	HIST-History	United States History I	26061	HIST	1301	157	901120554 Cynthia Dinsmore Charlie Langston	1	1	1	1	1	1	1	1	1	1	1	1	Y	Good	This project actually forced students to have multiple perspectives.
060	American History	HIST-History	United States History II	23891	HIST	1302	68	900032750 Kelli Rolland-Adkins Michael Grillo										0	0	0			This assignment is unaccessible. The assignment did not match the SLOs. The instructor is an adjunct that may not have received instruction on how to create an artifact for QEP.
060	American History	HIST-History	United States History II	10215	HIST	1302	86	900031241 Cynthia Dinsmore Charlie Langston										1	1	1			This assessment did not include a portion on social responsibility. It also did not really lay out the VIP method to make sure to hit all the points on Ethical Decision Making.
070	Government/Political Science	GOVT-Political Science/Govt	Texas Government	16869	GOVT	2306	5	901434370 Cynthia Dinsmore Charlie Langston										1	1	1			This one just needed to be reworded to get multiple perspectives.
080	Social and Behavioral Sciences	ECON-Economics	Principles of Macroeconomics	35626	ECON	2301	42	901433393 Cindy Pryor Kelsey Konkright	1	1	1										Y	Good	N/A

080	Social and Behavioral Sciences	GOVT-Political Science/Govt	Intro to Political Science	23915	GOVT	2304	2	900035634	David Kisel Joelle Nanivazo										The prompt was very relevant (Using Masks - COVID-19). The assessment even in essay form was not very difficult to assess. Students had good guidance on what to address in the essay.	Lots of reference sources were used causing students to reach very different conclusions. That is ok, but it makes it hard to know if they are well founded conclusions. Need to add a question to solicit responses for Empirical and Quantitative outcome 2; Data manipulation.

SDEV	Personal Responsibility	SDEV-Student Development	Foundations College Learning	40852	SDEV	370	37	900355761	Raymond Elliott Diana Escamilla										1	1	1	Y	The instructor who set up the SDEV QEP did absolutely awesome. The "prompt" was perfect for that reading/background knowledge level. The assignment setup lead the students to mastery/demonstrated. If the mastery level/demonstrated SLO was "list three XYZ's", the assignment requested the student to list three or more XYZ's. So clear, so logical, so student and assessor friendly.	N/A - a model for others

Feedback for ENGL 1301-280 and SPCH 1315-078 (Dr. Meagan Sovine and Ty Williams)
While it was great for students to pick the scenario they wanted to analyze, for assessment purposes it might be of benefit to offer one option. The reason for this is to increase the reliability that all students are receiving identical material and as such the responses are more likely to be easier to compare to one another because the topic of conversation is the same.

The organization of the questions were great and clearly written but it might be useful to give students sentence guidelines for each question (e.g. 3-5 sentences per question). This ensures that students will provide reasons behind their initial responses. Some students provided one sentence to respond to a series of questions, which is why they might have been scored low. The sentence requirements could prevent this obstacle.

For the wording of question 2 in personal responsibility questions, it should be considered to add more expectations for students to respond to this question. As it stands, students have to identify 3 options and explain parties who are impacted by each option. We get so many questions and concerns from students about this question because it confuses them. Currently, there's just not enough explanation for students to fully grasp what is being asked of them. We could add another sentence or two to better articulate expectations or we could reward the existing text.

Feedback for ENGL 1301 470 and 1301 536 (Jamie Miranda)
•Dual Credit class did not have students work as a team because on the three teamwork questions, students wrote about their jobs, sports teams, and cheerleading squads rather than the team for the QEP assignment.
•Even though my department (C & L) uses an assignment template, my assessment partner and I did not see the actual assignment the instructor gave students, so I could not evaluate where the issues lay.
•The order of the questions in the assignments is not always in the same order as the criteria on the rubrics, which can make assessment more difficult.

Feedback for HUMA 1301 032 and GOVT 2304 002
HUMA 1301: The assignment does not align with the first outcome of the social responsibility competency. The play is on the Greek culture hence limiting the culture lens of the assignment. The third outcome requires students to propose ways to engage with regional, national, and global communities to address the societal issue. I think there are two problems with this assignment. The first is the play Antigone. The play is too limited in focus. The questions are not drafted to align with the outcomes. Suggestions
1.Choose another play, preferably a play which contains different culture or can be interpreted using different culture lenses.
2.Rewrite the questions to align with the outcomes. The questions must be specific in requiring different cultures' interpretations and ways to solve the social or ethical issues at the regional, national, and global
GOVT 2304: Assignment Review
The assignment does not align with the second outcome of the empirical and quantitative competency. The second outcome requires data manipulation, whereas the assignment requires listing or citing the data from the articles. The articles may contain a breakdown of the data by gender, political party, age, etc.
Suggestion for improvement: Add a question that will require data manipulation such as the computation of an average or percentage increase/decrease.
