October's focus is Sexual Assault Awareness

This month we will focus on sexual assault. We will highlight the prevalence of sexual assault this month during our Wellness Wednesday on October 13th at 2:00pm. One in five women in the U.S. experienced completed or attempted rape during their lifetime. Nearly a quarter (24.8%) of men in the U.S. experienced some form of contact sexual violence in their lifetime. Forty percent of rapes and sexual assaults were reported to police in 2017, but only about 25% were reported to police in 2018. The prevalence of false reporting for sexual assault crimes is low (between 2% to 10%). About half (51.1%) of female victims of rape reported being raped by an intimate partner and 40.8% by an acquaintance. We can build safe online spaces, because sexual harassment, assault, and abuse can happen anywhere, including online. As we connect online, we can learn how to practice digital consent, intervene when we see harmful content or behaviors, and ensure that online spaces — whether they be workspaces, classrooms, social media platforms, or otherwise — are respectful and safe.
