Message from our Interim Vice President:

Greetings SPC Tigers,

Start this semester and each semester thereafter with confidence and the desire to succeed. Before the first day of class, print another copy of your class schedule. Get to know your advisor and make sure you know the names of each of your instructors. Take advantage of all the campus resources that are available to you. Stay focused and let motivation and determination be your super powers.

Connect with classmates, get involved in extracurricular activities, and most importantly focus on your academic goals. Have a great semester.

In service,

Diane Hester
Interim Vice President for Student Success
St. Philip's College

Preventive Steps

After you are fully vaccinated for COVID-19, take these steps to protect yourself and others:

- In general, you do not need to wear a mask in outdoor settings.
- If you are in an area with high numbers of COVID-19 cases, consider wearing a mask in crowded outdoor settings and when you are in close contact with others who are not fully vaccinated.
- You should continue to take all precautions recommended for unvaccinated people, including wearing a well-fitted mask, until advised otherwise by their healthcare provider.
- If you are fully vaccinated, to prevent possibly spreading viruses to others, wear a mask indoors in public if you are in an area of substantial or high transmission.

August is World Cataract Awareness Month.

This month we will focus on cataracts. More than half of all Americans age 80 or older either have cataracts or have had surgery to remove cataracts, according to the National Eye Institute (NEI). The CDC states that cataract are the leading cause of vision loss in the U.S., and the leading cause of blindness worldwide. Cataract Awareness Month will educate the public on risk factors, symptoms, types of cataract, and cataract surgery.

A cataract is a clouding of the eye's lens which blocks or changes the passage of light into the eye. The lens of the eye is located behind the pupil and the colored iris and is normally transparent. The lens helps to focus images onto the retina – which transmits the images to the brain. Visit <https://preventblindness.org/> for more information.
