November's focus is Prostate Awareness

This month we will focus on Prostate Awareness. We will highlight the importance of Prostate health, function, and illnesses this month during our **Wellness Wednesday** on November 3rd at 2:00pm. Fifty percent of men in their 60's and nearly 90% of men 70 or older have symptoms of an enlarged Prostate (BPH). Prostate cancer is the third leading cause of cancer deaths in men. Over 230,000 men are diagnosed with Prostate cancer each year and more than 30,000 men will die from it. Those at a higher risk include African-American men older than 60, farmers, tire plant workers, painters, and men exposed to cadmium. Prostatitis is an issue for all ages and affects 35% of men aged 50 and older.
