

# Enabling Brainfuse

1. Click on "Settings" in the course sidebar.
2. Click on the "Navigation" tab.
3. Find Brainfuse in the second group of items (these are the items that are not enabled).
4. Click on the three dots on the right and choose "Enable."

The screenshot shows the course navigation settings page for Spring 2020. The "Navigation" tab is selected. The page is divided into two sections: "Drag and drop items to reorder them in the course navigation." and "Drag items here to hide them from students. Disabling most pages will cause students who visit those pages to be redirected to the course home page." The first section contains a list of items: Home, Announcements, Assignments, Discussions, Grades, People, Pages, Files, Outcomes, Quizzes, Modules, Conferences, Collaborations, and Student Survey. The second section contains a list of items: MyLab and Mastering, Macmillan Higher Education, Brainfuse Online Tutoring, McGraw-Hill Connect, Chat, and McGraw-Hill SIMnet. A blue arrow labeled "1" points to the "Settings" link in the sidebar. A blue arrow labeled "2" points to the "Navigation" tab. A blue arrow labeled "3" points to the "Brainfuse Online Tutoring" item. A blue arrow labeled "4" points to the three dots menu for "Brainfuse Online Tutoring", which shows a "+ Enable" option.
