## ABOUT THE PRESENTERS

**SAVANNAH FERNANDEZ** is a Business major with a passion for education and on a mission to help those in need find nutrition.

**MIRANDA VAN DOREN** is the vice-president of the University of the Incarnate Word's Sustainability student organization, passionate about environmental policy, and majoring in communication arts and minoring in political science.

**MARIAJOSE CASILLAS** is the president of the University of the Incarnate Word's Sustainability student organization, devoted to the campus's community garden, and currently seeking her master's in communication arts.

**TIFFANY BRIANNA SCHOUTEN** - Quality Education is important to me because I believe every child deserves the same, proper education that can be provided. There are too many kids who do not have the same level of teaching as others because of the region their school is located which can stunt their future success.

**SARAH VILLALOBOS** chose to do quality education because this applies to my major. I see that some schools don't cover certain things because it isn't in their budget etc. I want to make sure all students are provided with the best education we can offer no matter the obstacles.

**SOFIA MIRANDA** is a 19-year-old graphic design student at San Antonio College. I've lived in Texas my whole life and recently moved to San Antonio from a small ranch down south.
