

Christian B. Adounvo

“Phish Me If You Can”

Christian B. Adounvo leads NortonLifeLock’s Offensive Security program. In this capacity, he oversees a portfolio of engagements designed to strengthen NortonLifeLock’s security posture by emulating real-world adversary tactics.

Prior to joining NortonLifeLock, he’s worked on Red Teams at Symantec, Capital One and with the US Marine Corps. He’s also been fortunate to work for several other technology Fortune 100 companies. Christian completed his BS in Computer Engineering, and MS in Management of Secure Information Systems at George Mason University. He has always had a strong passion for technology, security, robotics and engineering. His vision is to make a strong impact on the world through technology.

Christian lives in Northern Virginia, but was born and raised in West Africa. Christian really enjoys traveling and exploring the world as it enriches his perspectives on the world, and his appreciation for different cultures and lifestyles. He is also an avid reader and podcast listener.
